Re: Olds Regional Exhibition COVID-19 Update

On behalf of Olds Regional Exhibition, we would like to acknowledge the great work that Alberta Health Services is facilitating in response to COVID-19. Their commitment to making our businesses, non-profits, families and community safe is both noble and unsung. ORE's volunteer Board and Staff salute their tireless efforts and recognize that our partnership results in a transparent and safe gathering place for agriculture and retail commerce.

With recent updates to the pandemic, ORE would like to remind and enforce our vendors, consignors and guests to perform these best practices and "targeted public health measures" when attending our venue:

- ✓ All Agriculture Commerce is considered Non-Restricted Services and must follow general and sector specific guidance
- ✓ Trade Show & Exhibiting Events must follow sector guidance protocols
- ✓ Please do not attend programming if you feel unwell
- ✓ Please wear a mask or face shield when entering indoors
- ✓ Please utilize hand sanitizer at numerous stations
- ✓ Please maintain a 6' physical distance at all times
- ✓ Please send a designated representative to attend programming
- ✓ Please do not handle products not intending to purchase
- ✓ Please do not leave children unattended while onsite
- ✓ All updates found on <https://www.alberta.ca/biz-connect.aspx>

For over 120 years, Olds Regional Exhibition's purpose is to be a gathering place for celebration, commerce, training, sharing, presenting, competing and so much more! We are the social and economic fabric of our rural community and greater region. It is ORE's priority to keep our clients safe and celebrate their commitment to leading communities, protecting public health and feeding the world.

Regards,

Tracy Gardner
General Manager
