Important: Please be advised that ORE rolls the calendar from one year to the next with this approach. Annual clients will be brought forward into the next year based upon their FULL weekend of the month - i.e. first FULL Weekend, 2nd weekend, 3rd weekend, or 4th weekend. The reason for this change is that there are typically two months per year that change dramatically, i.e. Easter and other Statutory holidays, or have five weekends. This circumstance creates challenges for some of ORE' clients and the events that preceed or follow a specific event. ORE's protocol will be to identify the static influences - Calgary Stampede, Agribition, etc. Secondly, we will schedule our own produced events - Spring Classic, Beer Festival, Summer Synergy, Olds Fall Classic, etc. Then the repeat customers will be slotted into their typical weekend - based upon a four week month. The greatest challenge with this format will be for those events that have scheduled based upon a fluctuating date, "the weekend following the long weekend." However, we are confident that by working together, all events will be well integrated into the calendar in a predicatble manner. DISCLAIMER *ORE will have the final discretionary call on all dates as some dates may be subject to change*

ORE has compiled this rate sheet with the objective of giving consideration to "most" events. Please do not hesitate to inquire regarding the specific requirements of your event and a customized quotation.
